EXCHANGE STUDENTS

Welcome to FGES, Faculty of Business, Economics & Sciences!

Dear All,

Sophie CAVILLON
Associate Dean

Since its foundation, the Faculty of Management, Economics and Sciences, a multi-disciplinary faculty, has been committed to helping its students build their professional and personal projects. That's why we offer a full range of courses, from bachelor's to master's degrees, that meet the needs of the job market and are perfectly in tune with the ecological, societal and digital transitions.

To ensure that our students can meet the complex challenges of tomorrow's world, we are determined to train them not only to be competent in their respective fields, but also to be able to think objectively, analyze in perspective, act ethically and responsibly, and adapt to an ever-changing environment, in order to act ethically and responsibly, and to adapt to a constantly changing environment. We are therefore committed to providing them with a quality education, combining academic excellence and pedagogical innovation.

We are fortunate to be able to offer our training courses on 2 sites. The historic Vauban campus, home to our Bachelor's and ISEA programs, offers students a stimulating, intercultural and dynamic environment teeming with associations. The Wenov campus for our School of Digital Sciences and our Master's programs, located in Euratechnologies, is part of the largest start-up incubator in Europe that fosters collaborative work with the professional world.

Our faculty is also resolutely open to the world. We encourage everyone to take advantage of the opportunity to gain international experience, whether it be an exchange with one of our partner universities or an internship.

The Faculty of Management, Economics and Sciences strives to cultivate academic excellence, cutting-edge research and innovation, and to transmit the humanist values that are so important to the Université Catholique de Lille. We believe that these elements are essential in shaping well-informed global citizens, ready to meet the complex challenges of the 21st century. We are proud of our mission and determined to continue working to give our students the keys they need to build a better world.

LIVIN-FRANCE: INTERNATIONAL STUDENTS SERVICES

What is **Living-France**? A platform which gives the possibility to find an accommodation, but also carry out all the administrative procedures and subscribe to mandatory services while being accompanied before and during the arrival in France! **It's easy to use and free**. Please find below basic information to prepare your arrival... And for more details or help, don't hesitate to contact Living-France!

HOUSING AID

The APL (*Aide Personnalisée au Logement* = Personalized Assistance for accommodation) is a state scheme managed by the CAF (*Caisse d'Allocations Familiales* = Social Welfare Family Allowance); the amount students can receive depends on their funds. You can benefit from it only if you live in a *logement conventionné* (which means that the owner of the accommodation has a contract with the state). The flat/room owner can provide you with this information. If you are eligible for APL, you can make a simulation [here](#) to know how much you could get, and apply for it [here](#) the month following your arrival in France.

If you don't live in a *logement conventionné*, you may apply for the ALS (Allocation de Logement Social) also managed by the CAF. You can make a simulation [here](#) and apply [here](#).

To apply for it, you will need:

- A copy of your passport or ID card
- A birth certificate translated in French dated no further than 3 months back
- A copy of your student card or certificate of attendance
- A RIB (Relevé d'identité bancaire = bank account details)
- A copy of the OFII label for non-EU students.

You have questions on this topic? You need help? Don't hesitate to contact Living-France!

BANK ACCOUNT

To enroll the French health insurance (mandatory for non-EU students staying longer than 3 months), or to get the APL or ALS (see above), you will need to open a French bank account.

You can open a bank account in France in any Bank of your choice. To do so, you will need a passport or an ID card and a document with your French address.

Choose your bank carefully and take into consideration that each bank has different offers for students. You may have the choice between more types of accounts. Here are few questions you can ask: Are there opening and/or closing fees? / Can I withdraw money from another bank's ATM & if yes, is there any fee?

You have questions on this topic? You need help? Don't hesitate to contact Living-France!

HEALTH INSURANCE

For EU Students

If you are coming from the EU, you should ask for the European Health Insurance Card in your country, before your departure.

In France, even for a basic visit to your general practitioner, you first must pay a 25€ fee before being reimbursed by the CPAM (Caisse Primaire d'Assurance Maladie – French Health Insurance Office). To be reimbursed, you will need to go to the CPAM with your European Health Insurance Card, the treatment forms and a RIB/IBAN. The amount will be transferred to your bank account shortly.

For non-EU students

Even if you already have your own health insurance, the French Government requires non-EU students spending more than 3 months in France to enroll the French health insurance, called "Sécurité Sociale". It's free of charge.

How to enroll?

Before you arrive in France, get a complete copy of your birth certificate (including filiation). You can generally get it from the consulate. This does not need to be translated into French.

Once you have arrived in France:

- 1 Download the certificate of registration (or « attestation de scolarité ») on your Agora account
- 2 Open a French bank account to receive an IBAN number.
- 3 Connect to etudiant.etranger.ameli.fr and upload:
 - The certificate of registration from your academic department
 - Your birth certificate
 - Copy of your passport
 - Copy of (depending on your situation) your visa *CESEDA* validated by *OFI* or your Visa with the mention "dispense temporaire de carte de séjour »
 - Your IBAN

You will then be able to download a certificate (« attestation provisoire de carte vitale ») that will enable you to be refunded for your health expenses.

Important: The *Sécurité sociale* refunds about 70 % of medical costs. It doesn't cover you if you travel outside of France, also not in case of repatriation or for civil liability.

You have questions on this topic? You need help? Don't hesitate to contact Livin-France!

Important:

You have to validate your visa within 3 months upon your arrival in France at the very latest!

ATTENDANCE, EXAMS & GRADES

As no reference books are provided (all contents are provided during classes by the professors), we strongly advise you to attend all courses to succeed during exams!

The French grading system is based on a 20-points grading scale; the worst mark is 0/20, the best is 20/20.

Passing mark for international students: **9/20**

Credits you will get are the European credits, ECTS.

Special rule for international exchange students:

If Exam Grade > Continuous Assessment's grade

→ **Only the exam grade is recorded, all other grades are dropped.**

Example: (considering that the continuous assessment and the exam grade both count for 50% of the finale grade)

Continuous assessment = 6/20 - Final exam = 12/20

→For a regular student at FGES: 9/20

→**For an exchange student: 12/20**

If continuous assessment = 12/20 and final exam = 6/20

→For a regular student at FGES: 9/20

→**For an exchange student: 9/20**

The French grading system:

French Grade	Letter Grade	Description
16 - 20	A	Excellent <i>Outstanding performance with only minor errors</i>
13 - 15.99	B	Very Good <i>Above the average standard but with some errors</i>
11 - 12.99	C	Good <i>Generally sound work with a few notable errors</i>
10 - 10.99	D	Satisfactory <i>Fair but significant shortcomings</i>
9 - 9.99	E	Sufficient <i>Performance meets the minimum criteria</i>
